

## E-Mail Call!

To: Cassidyclaypoole@dassa.edu

From: Bradydeeb@dassa.edu

Subject: monkeys

Dear Cassidy

My name is Brady and I am your third grade partner. I can't wait to read our book! I wanted to help a little, so I found a great book and 5 facts that might help. The book is called Monkeys by Julie Guidone, published by Weekly Readerd books in the year 2009 .

The facts I found are:

1. Monkeys live in the rain forestes of central and southamerica.
2. They spend most of it's time in trees.
3. A baby howler monkey rides on it's mothers body to stay safe.
4. When a spider monkey hangs from it's tail it looks like a spider.
5. Monkeys make noise when preditors are near.

I also wanted to ask you some questions so I could write an about the author page. Here are my questions:

1. What do you like to do for fun?
2. What is your favorite animal?
3. Tell me about your family and pets.
4. What makes you happy?
5. What is a weird and interesting fact about you.

Thank you for writing our book, I can't wait to read it!

Sincerely,

Brady
